

ORE

ORE is a versatile recruitment system for various forms of improvement, such as conferences, workshops, and training.

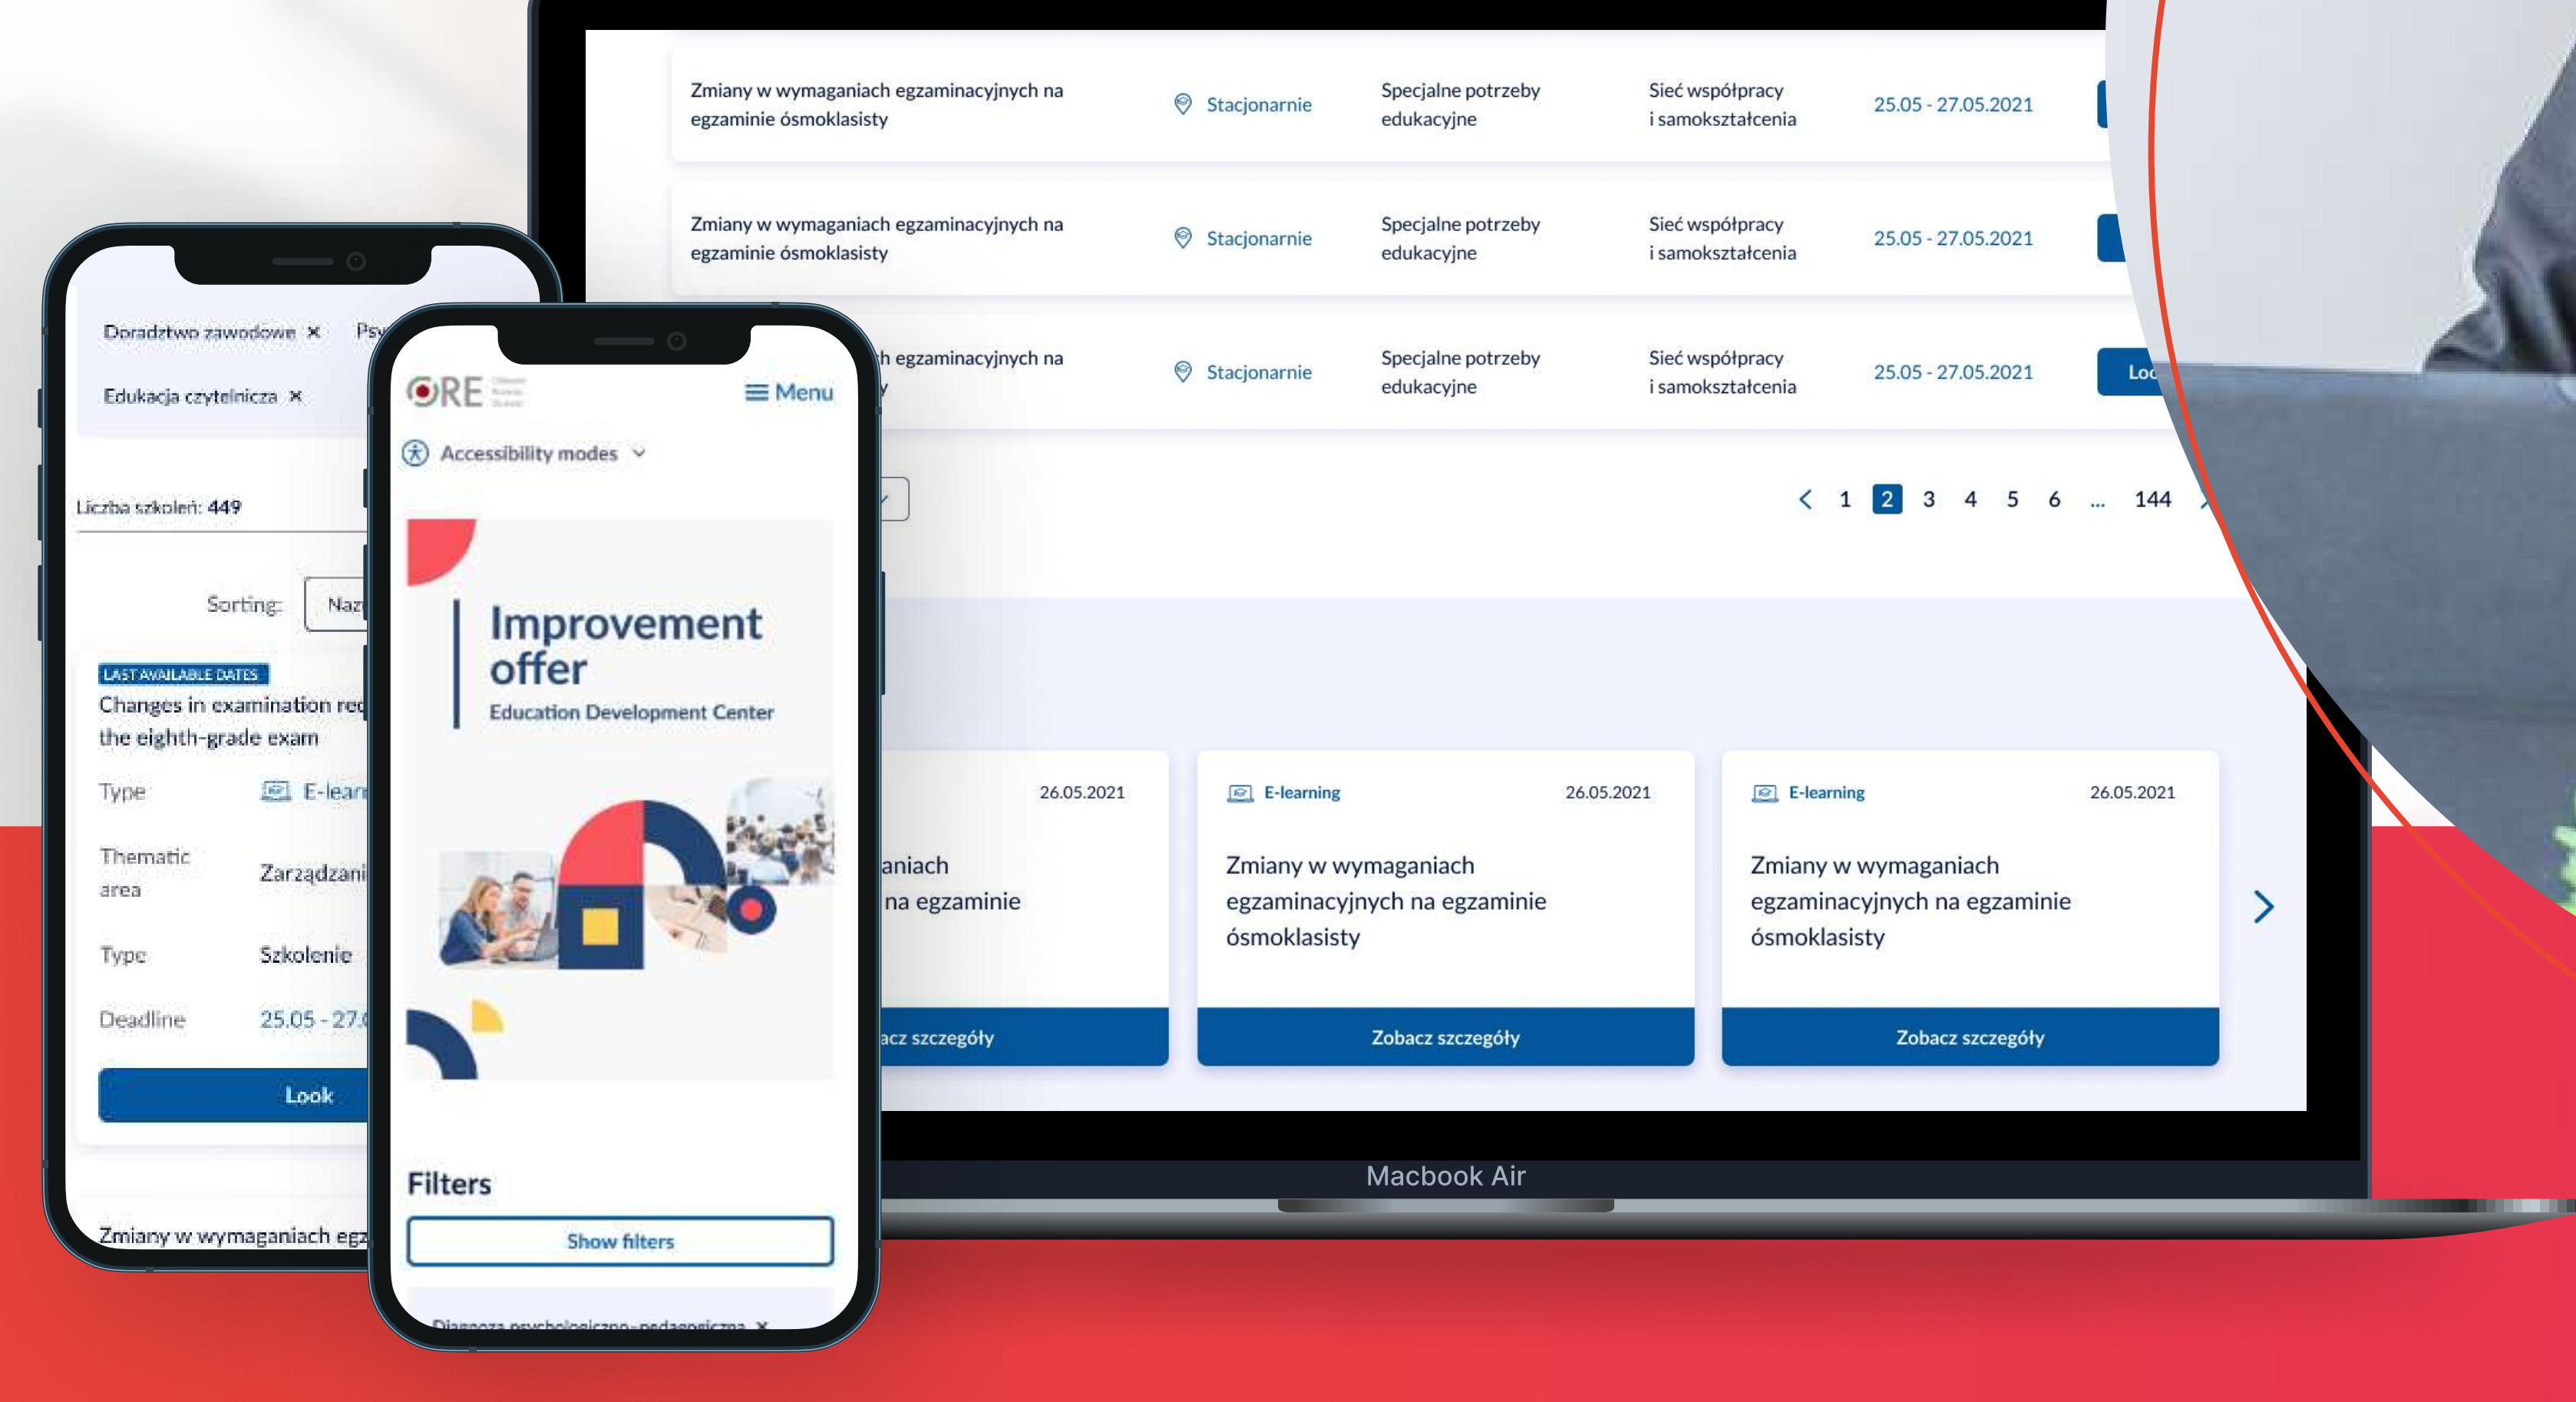

Workshops:

- 1 ORE is a versatile recruitment system catering to various improvement forms while ensuring accessibility and responsiveness.
- 2 The design and code integration relies on Google Material patterns, enhancing user experience through the 300DEVS Angular CDK.
- 3 The platform utilizes industry-standard tools and directives to streamline styling and create a highly functional UI system.

Designs

The project began with the design phase, focusing on creating a user-friendly and accessible recruitment platform for conferences, workshops, and training programs.

The design adhered to the WCAG 2.1 AA accessibility standards, ensuring it met the highest usability requirements.

Mockup

Design mockups were created to provide a clear and responsive interface for users across different devices.

The user interface design was based on Google Material design patterns, known for their usability and familiarity.

Testing

Extensive testing was conducted to guarantee that ORE met accessibility and responsiveness standards, providing an optimal user experience for a diverse audience.

Coding

The development phase involved coding the system using the 300DEVS Angular CDK, a trusted platform based on Google Material design patterns. It facilitated the creation of a fully responsive and accessible website that meets WCAG 2.1 AA requirements. The coding process included the integration of various features and functionalities required for recruitment and registration.

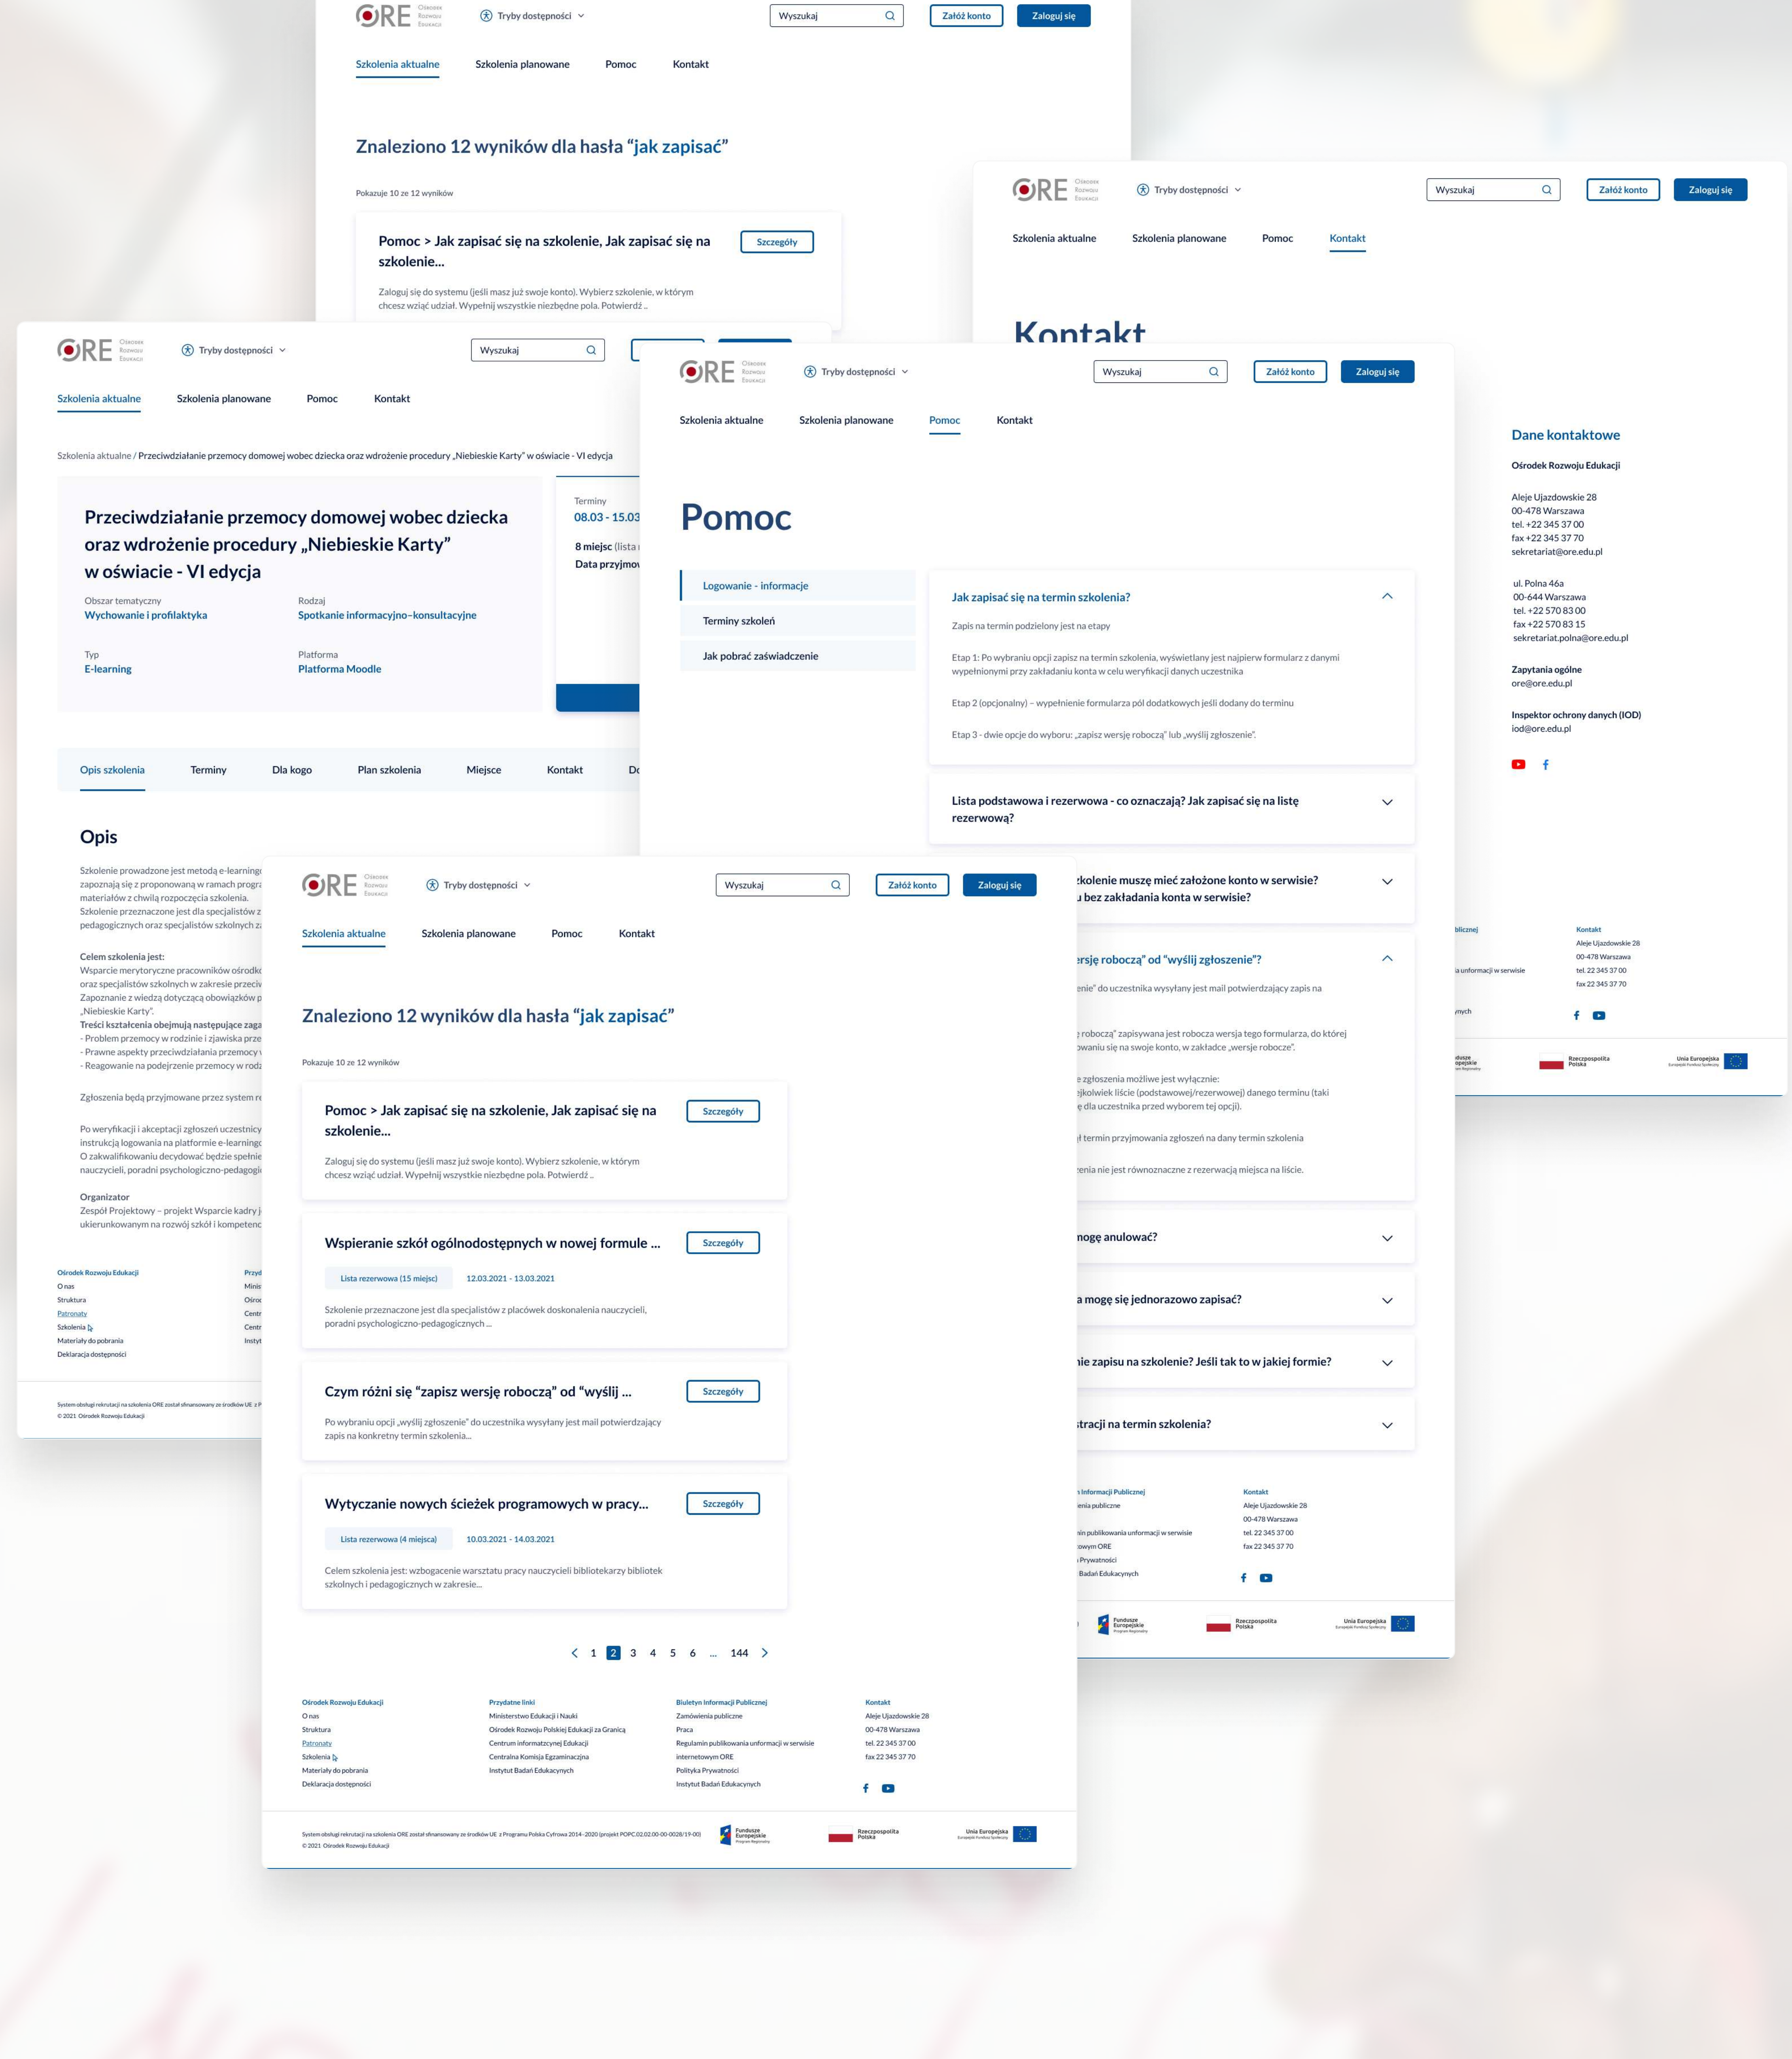

Results

The result is ORE, a comprehensive recruitment system designed for a wide range of improvement forms. It is a user-friendly, responsive, and accessible platform that adheres to the highest accessibility standards.

ORE streamlines the recruitment process for conferences, workshops, and training programs, providing a seamless experience for both recruiters and candidates, while ensuring compliance with accessibility requirements.

Our achievements highlight our commitment to creating the perfect solution for you. Contact us to discuss tailoring an application to your specific needs.
